The BioDundee conference is now in its 19th year and is the longest-running and most established event of its kind in Scotland. The Conference is a two-day event with accompanying exhibition and partnering opportunities attracting ~150 attendees and ~20 exhibitors from the UK, and International, Life Sciences, Healthcare, Digital, and associated sectors.

The 19th BioDundee Annual International Conference, accompanying exhibition and networking opportunity, will take place on Tuesday 21st and Wednesday 22nd of May 2019, in the West Park Conference Centre, Dundee DD2 1NN.

The Conference is also accompanied by a Networking Reception and Gala Dinner which will be held on the evening of Tuesday 21st of May, 2019. The accompanying Networking Reception and Gala Dinner is also attended by over 100 key stakeholders in the Life Sciences and Healthcare sectors and is an ideal opportunity to create and develop networks within and across the Life Sciences and connected sectors.

The BioDundee International Conference is an excellent forum to showcase innovation and expertise within the Life Sciences, Healthcare and associated sectors. It brings together the key people and organisations involved across Scotland and beyond, creating opportunities for sponsors and exhibitors to expand their networks, establish new business associations, and generate interest in products or services.

The steering group for the event draws from key agencies across Scotland. And this year the members of the BioDundee Conference Committee includes:
